<b>SYSTEM TOTAL (non-firm capacity)</b>			<b>401.7</b>
<b>SYSTEM TOTAL (firm and non-firm capacity) as of December 31, 2018</b>			<b>24,511</b>

(1) Represents FPL's net ownership interest in warm weather peaking capability

(2) The megawatts generated by the 75 MW solar thermal hybrid facility replace steam produced by this unit and therefore are not incremental

(3) Excludes Orlando Utilities Commission's and the Florida Municipal Power Agency's combined share of approximately 15% of St. Lucie Unit No. 2

(4) Represents FPL's approximately 76% ownership of Scherer Unit No. 4, which is jointly owned by JEA

<b>Total NEP Portfolio</b>									<u>4,995.2</u>		<u>4,720.2</u>		
<b>Total Generating Capability<sup>(5)</sup></b>											<u>22,566.5</u>		
Less noncontrolling interest <sup>(4)</sup>											<u>1,680.9</u>		
<b>Total Net Generating Capability as of December 31, 2018</b>											<u>20,885.6</u>		

(1) DMI: Differential Membership Interest

(2) Primarily PTC; also includes CITC on additional turbines placed in service

(3) NEP owns a 50% equity method investment in these solar projects

(4) These generating facilities are part of the NEP portfolio and at 12/31/2018 subject to a 35.6% noncontrolling interest; excludes equity method investments in McCoy and Adelanto as noted in FN 3

(5) Excludes 99.8 MW Spain Solar project

Note: Projects recognizing PTCs will expire after a ten-year term from COD
