September Investor Presentation

NextEra Energy

Cautionary Statements and Risk Factors That May Affect Future Results

This presentation includes forward-looking statements within the meaning of the federal securities laws. Actual results could differ materially from such forward-looking statements. Factors that could cause actual results to differ are discussed in the Appendix herein and in NextEra Energy's SEC filings.

Non-GAAP Financial Information

This presentation refers to certain financial measures that were not prepared in accordance with U.S. generally accepted accounting principles. Reconciliations of historical non-GAAP financial measures to the most directly comparable GAAP financial measures can be found in the Appendix herein.

Other

See Appendix for definition of Adjusted Earnings.

NextEra Energy has the common platform, scale and experience to power America

~$290 B Enterprise Value[1]

~82 GW in Operations[2]

Largest electric utility in the U.S.

Largest energy infrastructure developer in the U.S.

- Supply Chain & Buying Power
- Customer Network
- Market Knowledge
- Operating Scale
- Artificial Intelligence
- Data, Analytics & Innovation
- Access to Capital
- Talent, Culture & Experience
- Balance Sheet Strength

1. As of August 31, 2026
2. FPL and NextEra Energy Resources portfolio as of June 30, 2026; includes XPLR Infrastructure's portfolio reflected at NextEra Energy's ownership share

NextEra Energy's scale and experience across the entire energy value chain position us to lead amid accelerating demand and growing complexity

- America's **largest energy infrastructure developer**
- Owner and operator of the **largest electric utility** in the U.S.
- World leader in **renewables**[1]
- World leader in **battery storage**
- Operates one of America's largest **nuclear** fleets
- America's leading **transmission** utility and leading **competitive transmission developer**
- Better than **top-decile operations** across wind, solar, fossil and nuclear
- Industry leader in **artificial intelligence and technology**

1. Renewables include wind and solar

Our world-class supply chain leverages our scale and expertise

U.S. battery supply secured against expectations through 2029

Secured initial gas turbine capacity with GE Vernova for 4 GW of combined-cycle gas plant capacity

Solar panels secured against expectations through 2029

Purchased switchgears and breakers through 2029

Majority of wind components sourced from domestic supply chain

Advancing bridge power solutions

Sufficient wind sites with all expected federal permits to meet development expectations through 2029

Purchased transformers through 2030

1.5x
inventory coverage
on renewable projects[1]

1. 1.5x inventory coverage on projects and sites within our development expectations through 2030

We believe NextEra Energy is well-positioned to deliver strong growth over the next decade with more than 12 ways to grow

Illustrative timeline of when we expect investments to drive earnings growth

	Key Growth Drivers	2025	2030	2035+
Regulated Businesses	Florida Power & Light	Now and long term		
	FPL Large Load	Investing	2028+	
	Electric Transmission	Investing	2029+	
	Gas Transmission	Investing	2029+	
Long-term Contracted Businesses	Renewables	Now and long term		
	Storage	Now and long term		
	Gas Generation	Investing	2029+	
	Nuclear	Investing	2029+	
	NEER Large Load	Investing	2029+	
	Recontracting PPAs		2030+	
	Customer Supply	Now and long term		
	Artificial Intelligence	Now and long term		

Florida Power & Light supports rapid growth with smart investments, high reliability and low customer bills

- **FPL added over 90,000 customers from the prior-year comparable period**
- **FPL residential bill remains ~30% below the national average[1]**
- **Top decile reliability that's more than 60% better than the national average[2]**
- **FPL continues to own and operate more solar and storage than any utility in America**
- **Updated large load expectations from 6 GW to 8 GW by 2032**

1. National average reflects 50 utilities serving a large number of customers, MWh sales and geographic diversity; bill amounts reflect the latest available information and may have different effective dates
2. 2025 adjusted system average interruption duration index as reported to the FPSC; national average from PA Consulting ReliabilityOne database and EIA 2025 Report, (2024 data year); IOUs with 150K+ customers
3. Source: Florida Chamber of Commerce

FPL's rate settlement keeps bills low and supports smart infrastructure investments

Key Takeaways

Four Years of Certainty	Top-End ROE
2026–2029	11.95%

Equity Ratio	Rate Stabilization Mechanism
59.6% (unchanged)	~$1.5 B

Large load tariff provides growth – supporting rates with built-in customer protections

FPL

Keeping FPL Bills Low

~2%

average annual increase

on the typical 1,000-kWh bill

from 2025–2029

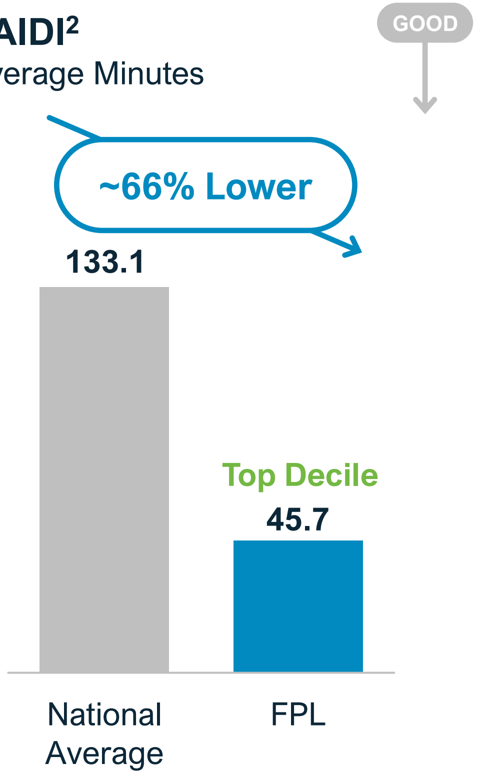
FPL makes smart capital investments, delivering low bills for customers

Cost Effectiveness

Non-Fuel O&M[1]
$/MWh

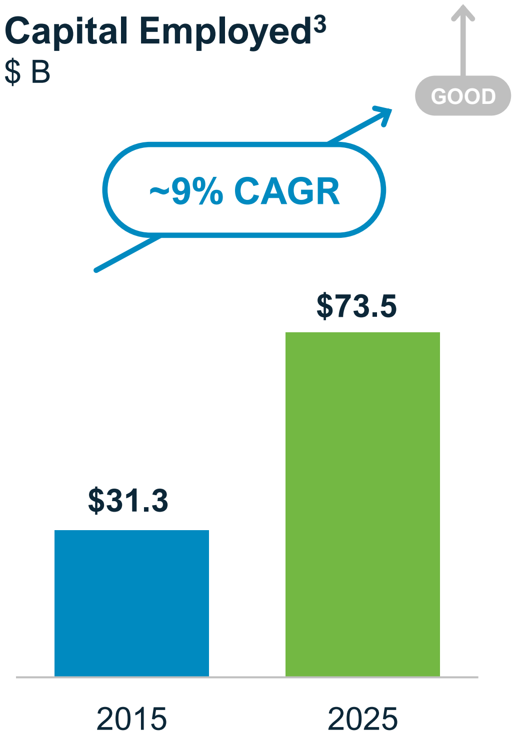
Reliability

SAIDI[2]
Average Minutes



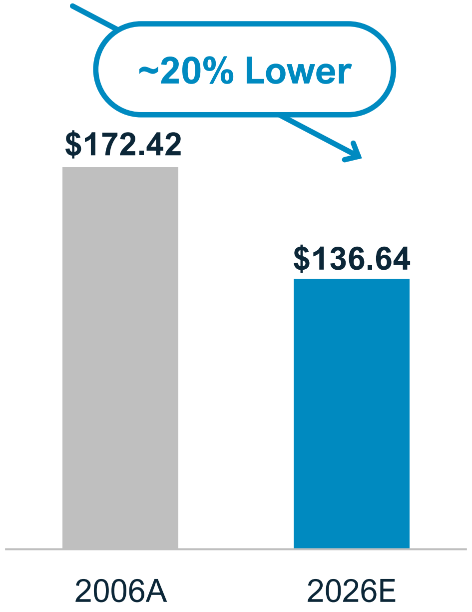
Continued Smart Investments

Capital Employed[3]
$ B



Residential Customer Bills

Typical FPL Residential Bill
$ per 1,000 kWh (adj. for inflation)



1. FERC Form 1 non-fuel O&M; Industry 2024; excludes injuries and damages, pensions and benefits and other power supply expenses; FPL excludes one-time storm impacts; includes holding companies with >100k customers and utility-owned generation
2. 2024 adjusted system average interruption duration index in EIA Report; national average from PA Consulting ReliabilityOne database and EIA 2025 Report, (2024 data year); IOUs with 150K+ customers
3. Excludes accumulated deferred income taxes; 13-month average; Includes retail rate base, wholesale rate base, clause-related investments and AFUDC projects

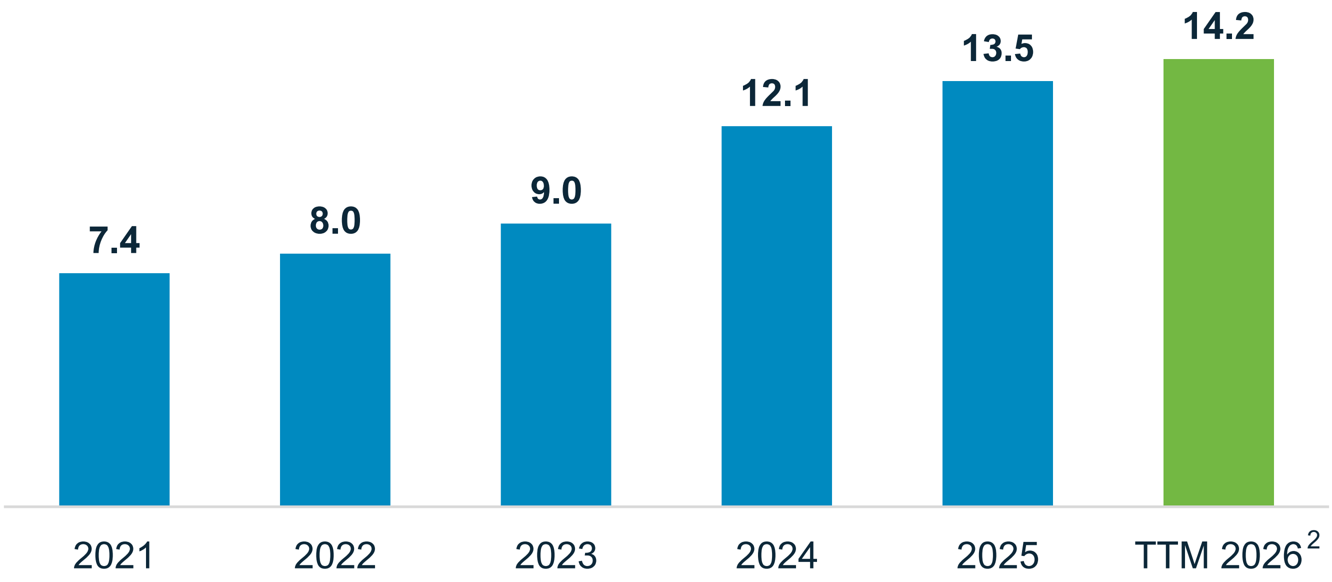
Energy Resources continues to deliver energy infrastructure to help America meet its power needs

- Recontracted ~1 GW of Point Beach Nuclear; over 2.1 GW of renewables and nuclear recontracted year to date
- Executed definitive agreements with the U.S. DOC and the Government of Japan for up to 10 GW of natural gas-powered generation, which enabled initial $3.3 B of funding
- Announced partnership to develop 4.6 GW at Paducah Energy Hub; including up to 2 GW of natural gas and up to 2.6 GW of battery energy storage systems
- Reached a combined conditional commitment and financial close with the DOE on a loan of up to $1.9 B for Duane Arnold Energy Center in Iowa
- Joint Venture[1] with Chesapeake Utilities Corporation for a 97-mile pipeline in South Florida totaling ~$1.2 B

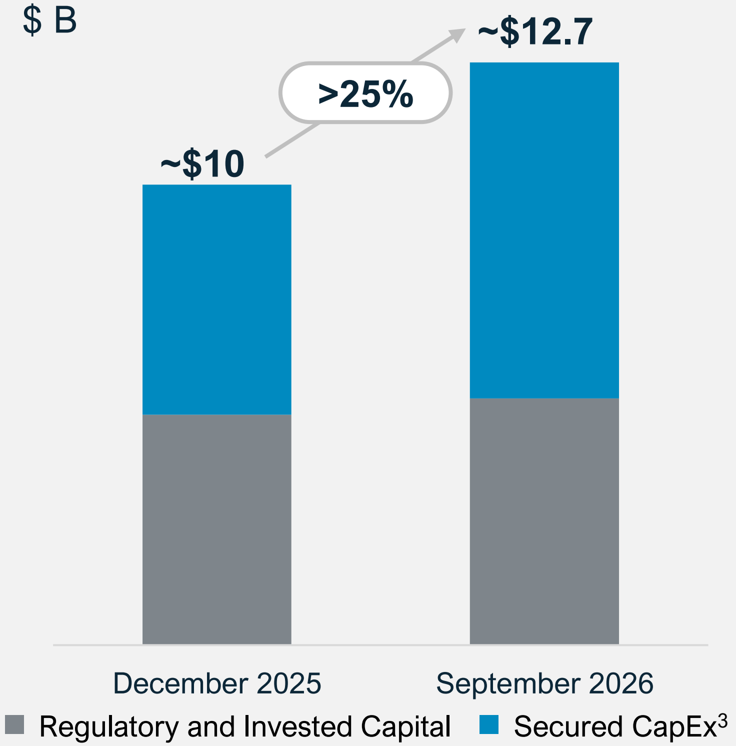
1. Energy Resources owns 49%

Energy Resources is well positioned to capitalize on the increasing power demand growth

Energy Resources Renewables and Storage Origination[1]
GW



Electric & Gas Transmission
$ B



1. Represents backlog additions from Q1 earnings call through Q4 earnings of the specified year; includes Duane Arnold
2. Trailing twelve months defined as backlog additions from Q3 2025 earnings call through Q2 2026 earnings call
3. Secured projects across NextEra Energy Transmission and gas transmission that have been awarded, are under development and are expected to be in operation by 2032

NextEra Energy Resources added 3.6 GW to the backlog during the second quarter and 7.6 GW year to date

3.6 GW of new generation and storage added to the backlog since the first quarter call

- ~0.9 GW of solar
- ~2.0 GW of battery storage
- ~0.7 GW of wind

NextEra Energy Resources Development Program[1]

	2026–2027 COD & Backlog	2026–2027 Expectations	2028–2029 Backlog	2028–2029 Expectations	2030–2032 Backlog	2030–2032 Expectations	2026–2032 Expectations
Wind[2]	3.3	3.5–5.5	2.7	3.0–5.0	0.6	2.0–4.0	**8.5–14.5**
Solar[2]	10.2	8.5–11.5	5.3	11.0–15.0	1.0	12.0–15.0	**31.5–41.5**
Battery Storage	7.9	8.0–10.0	4.4	10.0–14.0	0.6	14.0–19.0	**32.0–43.0**
Gas Generation	0.0	0.0	0.0	0.0	0.0	4.0–8.0	**4.0–8.0**
Nuclear	0.0	0.0	0.6	0.6	0.0	0.0	**0.6**
Total	**21.4**	**20.0–27.0**	**13.1**	**24.6–34.6**	**2.1**	**32.0–46.0**	**76.6–107.6**

Energy Resources' backlog stands at ~35.1 GW[3]

Note: Totals may not foot due to rounding

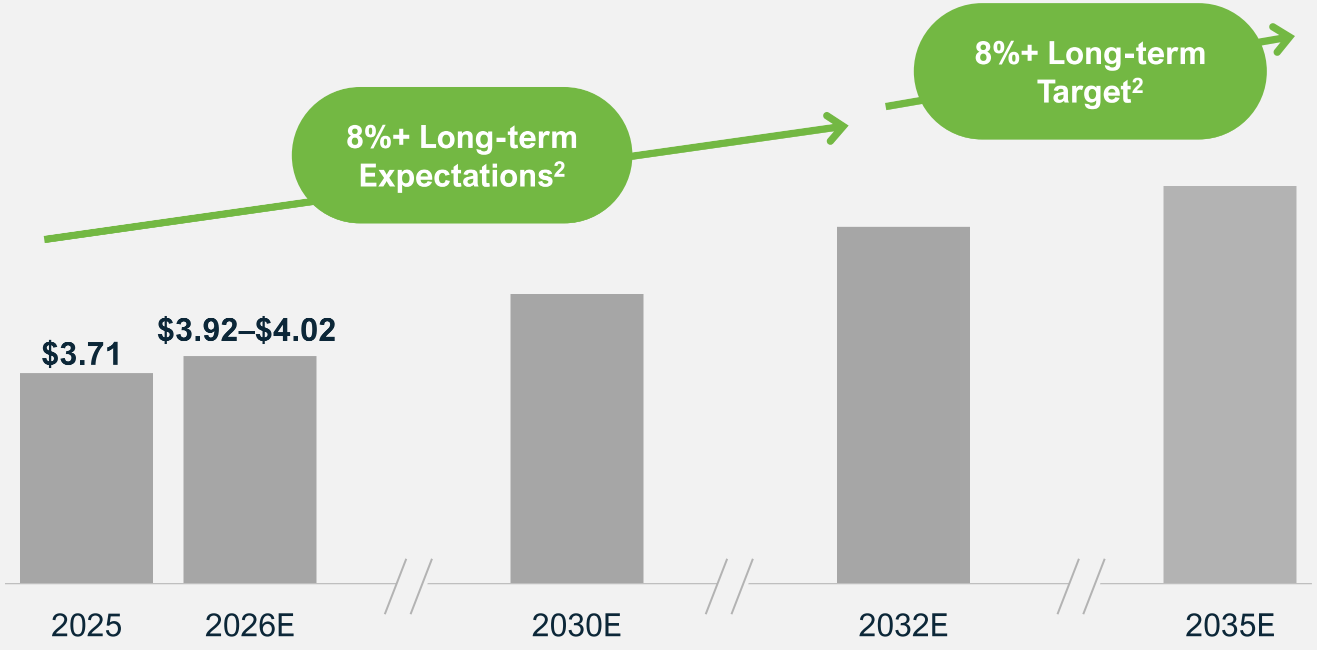
1. GW capacity expected to be owned and/or operated by NextEra Energy Resources as well as build-own-transfers; backlog defined as assets with signed long-term power purchase agreements, build-own-transfer projects and assets with expected long-term agreements including power hedging and/or the sale of environmental attributes; includes repowering and repowering expectations for partially owned assets, reflected as NextEra Energy's expected ownership share; all projects are subject to development and construction risks includes origination expectations in the "15 by 35" channel
2. Includes repowering expectations for partially owned assets, reflected at NextEra Energy's expected ownership share
3. As of July 24, 2026; net of ~1.1 GW placed in service and ~0.4 GW of projects removed from backlog since April 23, 2026; includes ~0.0 GW for post-2032 delivery

NextEra Energy remains well positioned to continue our strong adjusted earnings per share growth

NextEra Energy's Financial Expectations[1]

Adjusted Earnings Per Share Expectations

2025-2035E



- Expect 8%+ CAGR through 2032 off 2025 adjusted EPS[2]
- Targeting top end of the adjusted EPS range for 2026
- Targeting 8%+ CAGR through 2035 off 2025 adjusted EPS[2]
- Operating Cash Flow[3] expected to be at or above EPS growth rate range
- Expect ~10% annual dividend per share growth for 2026, off a 2024 base, and 6% per year growth from year-end 2026 through 2028[4]

1. Subject to our caveats
2. 2025 adjusted EPS of $3.71
3. 2025 base of $12.5 B
4. Off a 2026E base; dividend declarations are subject to the discretion of the board of directors of NextEra Energy

Subject to regulatory approvals, we expect the NextEra Energy and Dominion Energy merger to close in the second half of 2027

Q2 2026	Q3 2026	Q4 2026	Q1 2027	Q2 2027	Q3 2027	Q4 2027

Definitional information

NextEra Energy, Inc. Adjusted Earnings Expectations (including subsidiaries as applicable)

This presentation refers to adjusted earnings per share expectations. NextEra Energy does not provide a quantitative reconciliation of forward-looking adjusted earnings per share to earnings per share, the most directly comparable GAAP financial measure, because certain information needed to reconcile these measures is not available without unreasonable efforts due to the inherent difficulty in forecasting and quantifying these measures. These items include, but are not limited to, the effects of non-qualifying hedges and unrealized gains and losses on equity securities held in NextEra Energy Resources, LLC's nuclear decommissioning funds and other than temporary impairments. These items could significantly impact GAAP earnings per share. Adjusted earnings expectations and other forward-looking statements assume, among other things: normal weather and operating conditions; positive macroeconomic conditions in the U.S. and Florida; supportive commodity markets; current forward curves; public policy support for wind, solar and storage development and construction; market demand for generation development and capacity needs; market demand and policy support for transmission development and expansion; market demand for pipeline capacity; access to capital at reasonable cost and terms; rate case outcomes consistent with historical; no adverse litigation decisions; and no changes to governmental policies or incentives.

Cautionary Statement

This presentation contains “forward-looking statements” within the meaning of the safe harbor provisions of the Private Securities Litigation Reform Act of 1995. Forward-looking statements are not statements of historical facts, but instead represent the current expectations of NextEra Energy, Inc. (NextEra Energy) and Florida Power & Light Company (FPL) regarding future operating results and other future events, many of which, by their nature, are inherently uncertain and outside of NextEra Energy’s and FPL’s control. Forward-looking statements in this presentation include, among others, statements concerning the proposed business combination transaction between NextEra Energy and Dominion Energy and future events, plans, and anticipated results of operations, the anticipated benefits of the proposed transactions, the anticipated impact of the proposed transactions on the combined company’s business and future financial and operating results statements concerning adjusted earnings per share expectations and future operating performance, statements concerning interest rate risk management, statements concerning future dividends, and statements concerning growth strategies, capital investment opportunities and technology initiatives . In addition, all statements other than statements of historical fact included or incorporated by reference in this presentation, including, among other things, statements regarding the proposed business combination transaction between NextEra Energy and Dominion Energy, Inc., a Virginia corporation (Dominion Energy), and other aspects of NextEra Energy’s, FPL’s or Dominion Energy’s operations or operating results, are forward-looking statements. In some cases, you can identify the forward-looking statements by words or phrases such as “ambition,” “will,” “may result,” “expect,” “anticipate,” “estimate,” “believe,” “budget,” “intend,” “plan,” “seek,” “potential,” “projection,” “forecast,” “predict,” “goals,” “target,” “outlook,” “should,” “would,” “estimate,” “continue,” “could,” “objective,” “guidance,” “effort” or similar words or expressions. You should not place undue reliance on these forward-looking statements, which are not a guarantee of future performance, outcomes or results and are subject to numerous risks, uncertainties and other factors, many of which are beyond NextEra Energy’s, FPL’s or Dominion Energy’s control, that could cause actual performance, outcomes or results to differ materially from what is expressed or implied in the forward-looking statements, or may require them to limit or eliminate certain operations.

The risks and uncertainties relating to each of NextEra Energy’s and FPL’s businesses and financial condition include, but are not limited to, those discussed in this presentation and the following: risks related to the pending merger with Dominion Energy, including restrictions on our operations during the pendency of the merger; the risk that any governmental or regulatory approval, consent or authorization that may be required for the proposed transactions is not obtained, is delayed or is obtained subject to conditions that are not anticipated or that cause the termination of the merger agreement and abandonment of the transactions; the occurrence of any event, change or other circumstance that could give rise to the termination of the merger agreement by either party; the risk that certain provisions in the merger agreement or the pendency of the transactions may impact either party’s ability to pursue certain business opportunities or strategic transactions; the risk that we may not realize the anticipated benefits of the proposed transactions or successfully integrate the two companies; the anticipated impact of the proposed transactions on the combined company’s business and future financial and operating results, the anticipated closing date for the proposed transactions; effects of extensive regulation of NextEra Energy’s and FPL’s business operations; inability of NextEra Energy and FPL to recover in a timely manner any significant amount of costs, a return on certain assets or a reasonable return on invested capital through base rates, cost recovery clauses, other regulatory mechanisms or otherwise; impact of political, regulatory, operational and economic factors on regulatory decisions important to NextEra Energy and FPL; effect of any reductions or modifications to, or elimination of, governmental incentives or policies that support clean energy of NextEra Energy and FPL and their respective affiliated entities or changes in or the imposition of additional tax laws, tariffs, duties, policies or other costs or assessments on clean energy or equipment necessary to generate, store or deliver it; impact of new or revised laws, regulations, executive orders, interpretations or constitutional ballot and regulatory initiatives on NextEra Energy and FPL; capital expenditures, increased operating costs and various liabilities attributable to environmental laws, regulations and other standards applicable to NextEra Energy and FPL; effects on NextEra Energy and FPL of federal or state laws or regulations mandating new or additional limits on the production of greenhouse gas emissions; exposure of NextEra Energy and FPL to significant and increasing compliance costs and substantial monetary penalties and other sanctions as a result of extensive federal, state and local government regulation of their operations and businesses; effect on NextEra Energy and FPL of changes in tax laws, guidance or policies as well as in judgments and estimates used to determine tax-related asset and liability amounts; impact on NextEra Energy and FPL of adverse results of litigation; impacts on NextEra Energy or FPL of allegations of violations of law; effect on NextEra Energy and FPL of failure to proceed with projects under development or inability to complete the construction of (or capital improvements to) electric generation, storage, transmission and distribution facilities, natural gas and oil production and transportation facilities and other facilities on schedule or within budget; impact on development and operating activities of NextEra Energy and FPL resulting from risks related to project siting, construction, permitting, governmental approvals and the negotiation of project development agreements, as well as supply chain disruptions; risks involved in the operation and maintenance of electric generation, storage, transmission and distribution facilities, natural gas and oil production and transportation facilities, and other facilities; effect on NextEra Energy and FPL of a lack of growth, slower growth or a decline in the number of customers or in customer usage; planned productivity increases and competitive advantages through the use of artificial intelligence technologies may not be realized and the use of and reliance on artificial intelligence may present certain risks; impact on NextEra Energy and FPL of severe weather and other weather conditions; threats of geopolitical factors, terrorism and catastrophic events that could result from terrorism, cyberattacks or other attempts to disrupt NextEra Energy’s and FPL’s business or the businesses of third parties; inability to obtain adequate insurance coverage for protection of NextEra Energy and FPL against significant losses and risk that insurance coverage does not provide protection against all significant losses;

Cautionary Statement

a prolonged period of low natural gas and oil prices, disrupted production or unsuccessful drilling efforts could impact NextEra Energy Resources, LLC's (NextEra Energy Resources) natural gas and oil production operations and cause NextEra Energy Resources to delay or cancel certain natural gas and oil production projects and could result in certain assets becoming impaired; risk to NextEra Energy Resources of increased operating costs resulting from unfavorable supply costs necessary to provide NextEra Energy Resources' full energy and capacity requirements services; inability or failure to manage properly or hedge effectively the commodity risk within its portfolio; effect of reductions in the liquidity of energy markets on NextEra Energy's ability to manage operational risks; effectiveness of NextEra Energy's and FPL's risk management tools associated with their hedging and trading procedures to protect against significant losses, including the effect of unforeseen price variances from historical behavior; impact of unavailability or disruption of power transmission or commodity transportation operations on sale and delivery of power or natural gas by NextEra Energy, including FPL; exposure of NextEra Energy and FPL to credit and performance risk from customers, hedging counterparties and vendors; failure of NextEra Energy or FPL counterparties to perform under derivative contracts or of requirement for NextEra Energy or FPL to post margin cash collateral under derivative contracts; failure or breach of NextEra Energy's or FPL's information technology systems, or implementation challenges; risks to NextEra Energy's and FPL's retail businesses from compromise of sensitive customer data; losses from volatility in the market values of derivative instruments and limited liquidity in over-the-counter markets; impact of negative publicity; inability of FPL to maintain, negotiate or renegotiate acceptable franchise agreements with municipalities and counties in Florida; occurrence of work strikes or stoppages and increasing personnel costs; NextEra Energy's ability to successfully identify, complete and integrate acquisitions, including the effect of increased competition for acquisitions; environmental, health and financial risks associated with NextEra Energy Resources' and FPL's ownership and operation of nuclear generation facilities; liability of NextEra Energy and FPL for significant retrospective assessments and/or retrospective insurance premiums in the event of an incident at certain nuclear generation facilities; increased operating and capital expenditures and/or reduced revenues at nuclear generation facilities of NextEra Energy or FPL resulting from orders or new regulations of the Nuclear Regulatory Commission; inability to operate any of NextEra Energy Resources' or FPL's owned nuclear generation units through the end of their respective operating licenses or planned license extensions; effect of disruptions, uncertainty or volatility in the credit and capital markets or actions by third parties in connection with project-specific or other financing arrangements on NextEra Energy's and FPL's ability to fund their liquidity and capital needs and meet their growth objectives; defaults or noncompliance related to project-specific, limited-recourse financing agreements; inability of NextEra Energy, FPL and NextEra Energy Capital Holdings, Inc. to maintain their current credit ratings; reduction of NextEra Energy's and FPL's liquidity from the inability of credit providers to fund their credit commitments or to maintain their current credit ratings; poor market performance and other economic factors that could affect NextEra Energy's defined benefit pension plan's funded status; poor market performance and other risks to the asset values of NextEra Energy's and FPL's nuclear decommissioning funds; changes in market value and other risks to certain of NextEra Energy's assets and investments; effect of inability of NextEra Energy subsidiaries to pay upstream dividends, make distributions or repay funds to NextEra Energy or of NextEra Energy's performance under guarantees of subsidiary obligations on NextEra Energy's ability to meet its financial obligations and to pay dividends on its common stock; the fact that the amount and timing of dividends payable on NextEra Energy's common stock, as well as the dividend policy approved by NextEra Energy's board of directors from time to time, and changes to that policy, are within the sole discretion of NextEra Energy's board of directors and, if declared and paid, dividends may be in amounts that are less than might be expected by shareholders; effects of disruptions, uncertainty or volatility in the credit and capital markets on the market price of NextEra Energy's common stock; and the ultimate severity and duration of public health crises, epidemics and pandemics, and the related effects on NextEra Energy's or FPL's businesses. For additional information about other factors that could cause actual results to differ materially from those described in the forward-looking statements, please refer to NextEra Energy's, FPL's and Dominion Energy's respective periodic reports and other filings with the Securities and Exchange Commission (SEC), including, but not limited to, the risk factors contained in NextEra Energy's and FPL's, on the one hand, and Dominion Energy's, on the other, most recently filed Annual Reports on Form 10-K and subsequently filed Quarterly Reports on Form 10-Q, the registration statement on Form S-4 (Registration No. 333-297351) filed by NextEra Energy with the SEC on July 9, 2026 (Registration Statement), which was declared effective by the SEC on July 23, 2026, and the definitive joint proxy statement/prospectus filed by NextEra Energy with the SEC on July 28, 2026 (definitive joint proxy statement/prospectus).

This presentation should be read in conjunction with such SEC filings. Any forward-looking statements included in this presentation represent current expectations, are inherently uncertain and are made only as of the date hereof (or, if applicable, the date(s) indicated in such statement). Except as required by law, neither NextEra Energy nor FPL undertakes or assumes any obligation to update any forward-looking statements, whether as a result of new information or to reflect subsequent events or circumstances or otherwise.

No Offer or Solicitation

This communication is not intended to and shall not constitute an offer to buy or sell or the solicitation of an offer to buy or sell any securities, or a solicitation of any vote or approval, nor shall there be any sale, issuance or transfer of securities in any jurisdiction in which such offer, solicitation or sale would be unlawful prior to registration or qualification under the securities laws of any such jurisdiction. No offering of securities shall be made, except by means of a prospectus meeting the requirements of Section 10 of the Securities Act of 1933, as amended.

Cautionary Statement

Additional Information about the Proposed Transactions and Where to Find It

In connection with the proposed transactions, NextEra Energy has filed with the SEC the Registration Statement, which includes a joint proxy statement of NextEra Energy and Dominion Energy that also constitutes a prospectus of NextEra Energy. The Registration Statement was declared effective by the SEC on July 23, 2026. NextEra Energy filed the definitive joint proxy statement/prospectus with the SEC, and Dominion Energy filed a definitive proxy statement with the SEC, in each case, on July 28, 2026, and each of NextEra Energy and Dominion Energy commenced mailing of the definitive joint proxy statement/prospectus to their respective shareholders on or about July 28, 2026. Each of NextEra Energy and Dominion Energy may also file other relevant documents with the SEC regarding the proposed transactions. This presentation is not a substitute for the Registration Statement or the definitive joint proxy statement/prospectus or any other document that NextEra Energy or Dominion Energy may file with the SEC. INVESTORS AND SECURITY HOLDERS ARE URGED TO READ THE REGISTRATION STATEMENT, THE DEFINITIVE JOINT PROXY STATEMENT/PROSPECTUS AND ANY OTHER RELEVANT DOCUMENTS THAT MAY BE FILED WITH THE SEC, AS WELL AS ANY AMENDMENTS OR SUPPLEMENTS TO THOSE DOCUMENTS, CAREFULLY AND IN THEIR ENTIRETY AS THEY BECOME AVAILABLE BECAUSE THEY CONTAIN OR WILL CONTAIN IMPORTANT INFORMATION ABOUT NEXTERA ENERGY, DOMINION ENERGY, THE PROPOSED TRANSACTIONS AND RELATED MATTERS.

Investors and security holders may obtain free copies of the Registration Statement, the definitive joint proxy statement/prospectus and other documents containing important information about NextEra Energy, Dominion Energy and the proposed transactions filed or that will be filed with the SEC through the website maintained by the SEC at www.sec.gov. Copies of the documents filed with the SEC by NextEra Energy are available free of charge on NextEra Energy’s website at http://www.investor.nexteraenergy.com/ or by contacting NextEra Energy’s Investor Relations Department by email at investors@nexteraenergy.com or by phone at (800) 222-4511. Copies of the documents filed with the SEC by Dominion Energy are available free of charge on Dominion Energy’s website at http://investors.dominionenergy.com or by contacting Dominion Energy’s Investor Relations Department by email at investor.relations@dominionenergy.com or by phone at (804) 819-2438.
