Cautionary Statements and Risk Factors That May Affect Future Results

This presentation includes forward-looking statements within the meaning of the federal securities laws. Actual results could differ materially from such forward-looking statements. Factors that could cause actual results to differ are discussed in the Appendix herein and in NextEra Energy's SEC filings.

Non-GAAP Financial Information

This presentation refers to certain financial measures that were not prepared in accordance with U.S. generally accepted accounting principles. Reconciliations of historical non-GAAP financial measures to the most directly comparable GAAP financial measures can be found in the Appendix herein.

See Appendix for definition of Adjusted Earnings.

Since the Q2 call, NextEra Energy advanced over 20 GW of projects, recontracted ~1 GW at Point Beach, secured DOE loan for Duane Arnold and formed a joint venture for a ~$1.2 B pipeline

10 GW of Natural Gas

Two Federal Hubs totaling up to 10 GW with the DOC and Government of Japan; definitive agreement with initial $3.3 B funding

6.5 GW 3rd Federal Hub

~6.5 GW Federal Hub with the DOC and Republic of Korea; definitive agreements executed[1]

4.6 GW Paducah Hub

4.6 GW at Paducah Energy Hub; up to 2 GW of natural gas and up to 2.6 GW of battery energy storage systems

1 GW Recontracted

Recontracted ~1 GW at Point Beach Nuclear; average annual adjusted EPS of $0.21[2]

$1.9 B DOE Loan

Up to $1.9 B DOE Loan for Duane Arnold Energy Center in Iowa

$1.2 B Pipeline JV

Joint Venture[3] with Chesapeake Utilities Corporation for a ~$1.2 B pipeline in South Florida

1. Project would be owned jointly by South Korea and the U.S.
2. Includes ~1 GW recontracting in Q3 2026 and ~170 MW recontracting in Q4 2025
3. Energy Resources owns 49%

NextEra Energy has made strong progress on its 12 ways to grow since its Investor Conference in December 2025

Regulated Businesses

FPL

9.3% regulatory capital employed growth YTD[1]

FPL Large Load

6 GW increased to 8 GW of Large Load by 2032

Electric & Gas Transmission

Regulatory and Invested Capital and Secured CapEx increased ~25%

Long-Term Contracted Businesses

Renewables + Storage

~2/3 of ’26–’29 development expectations are in backlog or have reached COD

Gas – Federal Hubs

~8 GW of EPS equivalent natural gas projects[2] (high-end of 2032 expectations)

NEER Large Load

Selected for 3 Federal Hubs and announced Paducah Energy Hub, totaling >20 GW

Nuclear

Recontracted Point Beach; secured DOE loan for Duane Arnold[3]

Recontracting PPA

Recontracted more than 2.1 GW of projects

Interest Rate Hedges

Built ~$46 B hedge program with average rate of ~4%[4]

100+ strategic initiatives under execution

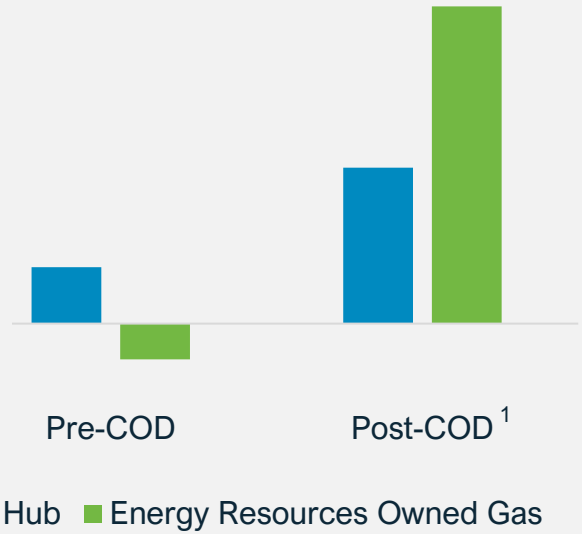

1. Q2 2026 over Q2 2025
2. Federal Hub projects included at 50% of nameplate capacity to reflect adjusted EPS contribution profile under fee-based structure
3. Reached a combined conditional commitment and financial close with the DOE on a loan of up to $1.9 B
4. Forward starting hedges with an average tenor of ~9 years as of Q2 2026

Federal Hubs create attractive long-term EPS profile

- **Federal Hubs require no capital commitment from NextEra Energy and earn attractive fees with no EPS drag**
- **EPS contribution from these projects post-COD is ~50% of an Energy Resources owned gas asset**
- **DOC/Japan projects have received initial funding of $3.3 B; next capital call expected in Q4 2026**
- **Proceeding with construction and PPA solicitation simultaneously to create speed-to-market advantage**
- **Energy Resources has the ability to provide battery storage to support data centers; potential upside to development expectations**

Definitional information

NextEra Energy, Inc. Adjusted Earnings Expectations (including subsidiaries as applicable)

This presentation refers to adjusted earnings per share expectations. NextEra Energy does not provide a quantitative reconciliation of forward-looking adjusted earnings per share to earnings per share, the most directly comparable GAAP financial measure, because certain information needed to reconcile these measures is not available without unreasonable efforts due to the inherent difficulty in forecasting and quantifying these measures. These items include, but are not limited to, the effects of non-qualifying hedges and unrealized gains and losses on equity securities held in NextEra Energy Resources, LLC's nuclear decommissioning funds and other than temporary impairments. These items could significantly impact GAAP earnings per share. Adjusted earnings expectations and other forward-looking statements assume, among other things: normal weather and operating conditions; positive macroeconomic conditions in the U.S. and Florida; supportive commodity markets; current forward curves; public policy support for wind, solar and storage development and construction; market demand for generation development and capacity needs; market demand and policy support for transmission development and expansion; market demand for pipeline capacity; access to capital at reasonable cost and terms; rate case outcomes consistent with historical; no adverse litigation decisions; and no changes to governmental policies or incentives.

Cautionary Statement

This presentation contains "forward-looking statements" within the meaning of the safe harbor provisions of the Private Securities Litigation Reform Act of 1995. Forward-looking statements are not statements of historical facts, but instead represent the current expectations of NextEra Energy, Inc. (NextEra Energy) and Florida Power & Light Company (FPL) regarding future operating results and other future events, many of which, by their nature, are inherently uncertain and outside of NextEra Energy's and FPL's control. Forward-looking statements in this presentation include, among others, statements concerning the pending business combination transaction between NextEra Energy and Dominion Energy and future events, plans and anticipated results of operations, the anticipated benefits of the pending transactions, the anticipated impact of the pending transactions on the combined company's business and future financial and operating results, statements concerning adjusted earnings per share expectations and future operating performance, statements concerning interest rate risk management, statements concerning future dividends, and statements concerning growth strategies, capital investment opportunities and technology initiatives. In addition, all statements other than statements of historical fact included or incorporated by reference in this presentation, including, among other things, statements regarding the pending business combination transaction between NextEra Energy and Dominion Energy, Inc., a Virginia corporation (Dominion Energy), and other aspects of NextEra Energy's, FPL's or Dominion Energy's operations or operating results, are forward-looking statements. In some cases, you can identify the forward-looking statements by words or phrases such as "ambition," "will," "may result," "expect," "anticipate," "estimate," "believe," "budget," "intend," "plan," "seek," "potential," "projection," "forecast," "predict," "goals," "target," "outlook," "should," "would," "estimate," "continue," "could," "objective," "guidance," "effort" or similar words or expressions. You should not place undue reliance on these forward-looking statements, which are not a guarantee of future performance, outcomes or results and are subject to numerous risks, uncertainties and other factors, many of which are beyond NextEra Energy's, FPL's or Dominion Energy's control, that could cause actual performance, outcomes or results to differ materially from what is expressed or implied in the forward-looking statements, or may require them to limit or eliminate certain operations.

The risks and uncertainties relating to each of NextEra Energy's and FPL's businesses and financial condition include, but are not limited to, those discussed in this presentation and the following: risks related to the pending merger with Dominion Energy, including restrictions on our operations during the pendency of the merger; the risk that any governmental or regulatory approval, consent or authorization that may be required for the pending transactions is not obtained, is delayed or is obtained subject to conditions that are not anticipated or that cause the termination of the merger agreement and abandonment of the transactions; the occurrence of any event, change or other circumstance that could give rise to the termination of the merger agreement by either party; the risk that certain provisions in the merger agreement or the pendency of the transactions may impact either party's ability to pursue certain business opportunities or strategic transactions; the risk that we may not realize the anticipated benefits of the pending transactions or successfully integrate the two companies; the anticipated impact of the pending transactions on the combined company's business and future financial and operating results, the anticipated closing date for the pending transactions; effects of extensive regulation of NextEra Energy's and FPL's business operations; inability of NextEra Energy and FPL to recover in a timely manner any significant amount of costs, a return on certain assets or a reasonable return on invested capital through base rates, cost recovery clauses, other regulatory mechanisms or otherwise; impact of political, regulatory, operational and economic factors on regulatory decisions important to NextEra Energy and FPL; effect of any reductions or modifications to, or elimination of, governmental incentives or policies that support clean energy of NextEra Energy and FPL and their respective affiliated entities or changes in or the imposition of additional tax laws, tariffs, duties, policies or other costs or assessments on clean energy or equipment necessary to generate, store or deliver it; impact of new or revised laws, regulations, executive orders, interpretations or constitutional ballot and regulatory initiatives on NextEra Energy and FPL; capital expenditures, increased operating costs and various liabilities attributable to environmental laws, regulations and other standards applicable to NextEra Energy and FPL; effects on NextEra Energy and FPL of federal or state laws or regulations mandating new or additional limits on the production of greenhouse gas emissions; exposure of NextEra Energy and FPL to significant and increasing compliance costs and substantial monetary penalties and other sanctions as a result of extensive federal, state and local government regulation of their operations and businesses; effect on NextEra Energy and FPL of changes in tax laws, guidance or policies as well as in judgments and estimates used to determine tax-related asset and liability amounts; impact on NextEra Energy and FPL of adverse results of litigation; impacts on NextEra Energy or FPL of allegations of violations of law; effect on NextEra Energy and FPL of failure to proceed with projects under development or inability to complete the construction of (or capital improvements to) electric generation, storage, transmission and distribution facilities, natural gas and oil production and transportation facilities and other facilities on schedule or within budget; impact on development and operating activities of NextEra Energy and FPL resulting from risks related to project siting, construction, permitting, governmental approvals and the negotiation of project development agreements, as well as supply chain disruptions; risks involved in the operation and maintenance of electric generation, storage, transmission and distribution facilities, natural gas and oil production and transportation facilities, and other facilities; effect on NextEra Energy and FPL of a lack of growth, slower growth or a decline in the number of customers or in customer usage; planned productivity increases and competitive advantages through the use of artificial intelligence technologies may not be realized and the use of and reliance on artificial intelligence may present certain risks; impact on NextEra Energy and FPL of severe weather and other weather conditions; threats of geopolitical factors, terrorism and catastrophic events that could result from terrorism, cyberattacks or other attempts to disrupt NextEra Energy's and FPL's business or the businesses of third parties; inability to obtain adequate insurance coverage for protection of NextEra Energy and FPL against significant losses and risk that insurance coverage does not provide protection against all significant losses;

Cautionary Statement

a prolonged period of low natural gas and oil prices, disrupted production or unsuccessful drilling efforts could impact NextEra Energy Resources, LLC's (NextEra Energy Resources) natural gas and oil production operations and cause NextEra Energy Resources to delay or cancel certain natural gas and oil production projects and could result in certain assets becoming impaired; risk to NextEra Energy Resources of increased operating costs resulting from unfavorable supply costs necessary to provide NextEra Energy Resources' full energy and capacity requirements services; inability or failure to manage properly or hedge effectively the commodity risk within its portfolio; effect of reductions in the liquidity of energy markets on NextEra Energy's ability to manage operational risks; effectiveness of NextEra Energy's and FPL's risk management tools associated with their hedging and trading procedures to protect against significant losses, including the effect of unforeseen price variances from historical behavior; impact of unavailability or disruption of power transmission or commodity transportation operations on sale and delivery of power or natural gas by NextEra Energy, including FPL; exposure of NextEra Energy and FPL to credit and performance risk from customers, hedging counterparties and vendors; failure of NextEra Energy or FPL counterparties to perform under derivative contracts or of requirement for NextEra Energy or FPL to post margin cash collateral under derivative contracts; failure or breach of NextEra Energy's or FPL's information technology systems, or implementation challenges; risks to NextEra Energy's and FPL's retail businesses from compromise of sensitive customer data; losses from volatility in the market values of derivative instruments and limited liquidity in over-the-counter markets; impact of negative publicity; inability of FPL to maintain, negotiate or renegotiate acceptable franchise agreements with municipalities and counties in Florida; occurrence of work strikes or stoppages and increasing personnel costs; NextEra Energy's ability to successfully identify, complete and integrate acquisitions, including the effect of increased competition for acquisitions; environmental, health and financial risks associated with NextEra Energy Resources' and FPL's ownership and operation of nuclear generation facilities; liability of NextEra Energy and FPL for significant retrospective assessments and/or retrospective insurance premiums in the event of an incident at certain nuclear generation facilities; increased operating and capital expenditures and/or reduced revenues at nuclear generation facilities of NextEra Energy or FPL resulting from orders or new regulations of the Nuclear Regulatory Commission; inability to operate any of NextEra Energy Resources' or FPL's owned nuclear generation units through the end of their respective operating licenses or planned license extensions; effect of disruptions, uncertainty or volatility in the credit and capital markets or actions by third parties in connection with project-specific or other financing arrangements on NextEra Energy's and FPL's ability to fund their liquidity and capital needs and meet their growth objectives; defaults or noncompliance related to project-specific, limited-recourse financing agreements; inability of NextEra Energy, FPL and NextEra Energy Capital Holdings, Inc. to maintain their current credit ratings; reduction of NextEra Energy's and FPL's liquidity from the inability of credit providers to fund their credit commitments or to maintain their current credit ratings; poor market performance and other economic factors that could affect NextEra Energy's defined benefit pension plan's funded status; poor market performance and other risks to the asset values of NextEra Energy's and FPL's nuclear decommissioning funds; changes in market value and other risks to certain of NextEra Energy's assets and investments; effect of inability of NextEra Energy subsidiaries to pay upstream dividends, make distributions or repay funds to NextEra Energy or of NextEra Energy's performance under guarantees of subsidiary obligations on NextEra Energy's ability to meet its financial obligations and to pay dividends on its common stock; the fact that the amount and timing of dividends payable on NextEra Energy's common stock, as well as the dividend policy approved by NextEra Energy's board of directors from time to time, and changes to that policy, are within the sole discretion of NextEra Energy's board of directors and, if declared and paid, dividends may be in amounts that are less than might be expected by shareholders; effects of disruptions, uncertainty or volatility in the credit and capital markets on the market price of NextEra Energy's common stock; and the ultimate severity and duration of public health crises, epidemics and pandemics, and the related effects on NextEra Energy's or FPL's businesses. For additional information about other factors that could cause actual results to differ materially from those described in the forward-looking statements, please refer to NextEra Energy's, FPL's and Dominion Energy's respective periodic reports and other filings with the Securities and Exchange Commission (SEC), including, but not limited to, the risk factors contained in NextEra Energy's and FPL's, on the one hand, and Dominion Energy's, on the other, most recently filed Annual Reports on Form 10-K and subsequently filed Quarterly Reports on Form 10-Q, the registration statement on Form S-4 (Registration No. 333-297351) filed by NextEra Energy with the SEC on July 9, 2026 (Registration Statement), which was declared effective by the SEC on July 23, 2026, and the definitive joint proxy statement/prospectus filed by NextEra Energy with the SEC on July 28, 2026 (definitive joint proxy statement/prospectus).

This presentation should be read in conjunction with such SEC filings. Any forward-looking statements included in this presentation represent current expectations, are inherently uncertain and are made only as of the date hereof (or, if applicable, the date(s) indicated in such statement). Except as required by law, neither NextEra Energy nor FPL undertakes or assumes any obligation to update any forward-looking statements, whether as a result of new information or to reflect subsequent events or circumstances or otherwise.

No Offer or Solicitation

This presentation is not intended to and shall not constitute an offer to buy or sell or the solicitation of an offer to buy or sell any securities, nor shall there be any sale, issuance or transfer of securities in any jurisdiction in which such offer, solicitation or sale would be unlawful prior to registration or qualification under the securities laws of any such jurisdiction. No offering of securities shall be made, except by means of a prospectus meeting the requirements of Section 10 of the Securities Act of 1933, as amended.

Cautionary Statement

Additional Information about the Transactions and Where to Find It

In connection with the pending transactions, NextEra Energy has filed with the SEC the Registration Statement, which includes a joint proxy statement of NextEra Energy and Dominion Energy that also constitutes a prospectus of NextEra Energy. The Registration Statement was declared effective by the SEC on July 23, 2026. NextEra Energy filed the definitive joint proxy statement/prospectus with the SEC, and Dominion Energy filed a definitive proxy statement with the SEC, in each case, on July 28, 2026, and each of NextEra Energy and Dominion Energy commenced mailing of the definitive joint proxy statement/prospectus to their respective shareholders on or about July 28, 2026. Each of NextEra Energy and Dominion Energy may also file other relevant documents with the SEC regarding the pending transactions. This presentation is not a substitute for the Registration Statement or the definitive joint proxy statement/prospectus or any other document that NextEra Energy or Dominion Energy may file with the SEC. INVESTORS AND SECURITY HOLDERS ARE URGED TO READ THE REGISTRATION STATEMENT, THE DEFINITIVE JOINT PROXY STATEMENT/PROSPECTUS AND ANY OTHER RELEVANT DOCUMENTS THAT MAY BE FILED WITH THE SEC, AS WELL AS ANY AMENDMENTS OR SUPPLEMENTS TO THOSE DOCUMENTS, CAREFULLY AND IN THEIR ENTIRETY AS THEY BECOME AVAILABLE BECAUSE THEY CONTAIN OR WILL CONTAIN IMPORTANT INFORMATION ABOUT NEXTERA ENERGY, DOMINION ENERGY, THE PENDING TRANSACTIONS AND RELATED MATTERS.

Investors and security holders may obtain free copies of the Registration Statement, the definitive joint proxy statement/prospectus and other documents containing important information about NextEra Energy, Dominion Energy and the pending transactions filed or that will be filed with the SEC through the website maintained by the SEC at www.sec.gov.
