See Appendix for definition of Adjusted Earnings, Adjusted EBITDA and Adjusted EBITDA by Asset Category expectations.

NextEra Energy delivered strong third quarter results, growing adjusted earnings per share by 9.7% year-over-year

NextEra Energy Results – Third Quarter

Hurricane Isaias made landfall in the northwest Florida panhandle on October 9th as a strong Category 2 storm

Approximately 435,000 FPL customers were impacted by Hurricane Isaias

FPL had a restoration workforce of ~17,000 men and women from 29 states

Smart grid technology avoided ~140,000 outages

Undergrounding investments greatly benefited customers performing ~14x better than overhead

Storm exited early Saturday and over 97% of our customers were returned to service 3 days later

NextEra Energy continues to execute on its 2025 Investor Conference objectives

1. Unless otherwise noted

2. Secured projects across NEET and gas transmission that have been awarded, are under development and are expected to be in operation by 2032

3. Federal Hub projects included at 50% of nameplate capacity to reflect adjusted EPS contribution profile under fee-based structure

4. Nine months ended September 30, 2026 over nine months ended September 30, 2025

Florida Power & Light supports rapid growth with smart investments, high reliability and low customer bills

FPL added over 86,000 customers from the prior-year comparable period

FPL residential bill remains ~37% below the national average¹

Top decile reliability that's more than 60% better than the national average²

FPL customer service ranked top decile nationally for residential customer satisfaction

Updated large load expectations from 6 GW to 8 GW by 2032

1. National average reflects 50 utilities serving a large number of customers, MWh sales and geographic diversity; bill amounts reflect the latest available information and may have different effective dates

2. 2025 adjusted system average interruption duration index as reported to the FPSC; national average from PA Consulting ReliabilityOne database and EIA 2025 Report, (2024 data year); IOUs with 150K+ customers

FPL®

Florida's \$1.9 trillion annual economy is the 14th largest in the world³

Energy Resources had a strong quarter and continues to deliver energy infrastructure to help America meet its power needs

3.7 GW Backlog Additions

Added **3.7 GW** of renewables and storage to the backlog in the third quarter bringing total backlog to **36.7 GW**; **~15 GW LTM**

16.5 GW Natural Gas

~16.5 GW of Federal Hubs with the DOC/ Government of Japan and DOC/Republic of Korea; definitive agreements with initial **\$5.7 B** funding¹

4.6 GW Paducah Hub

4.6 GW at Paducah Energy Hub; up to **2 GW** of natural gas and up to **2.6 GW** of battery storage systems

1.3 GW Recontracted

~1 GW at Point Beach Nuclear and **over 250 MW** of renewables; total recontracting of **~2.4 GW**

\$1.9 B DOE Loan

Up to **\$1.9 B** DOE Loan for Duane Arnold Energy Center in Iowa

~25% Growth in Transmission

Regulated transmission increased **~25%** in regulatory and invested capital & secured capex²

1. DOC and Government of Japan Federal Hub received funding for \$3.3 B and DOC and Republic of Korea Federal Hub received funding for \$2.4 B
2. Since Investor Conference 2025; secured projects across NextEra Energy Transmission and gas transmission that have been awarded, are under development and are expected to be in operation by 2032

NextEra Energy Resources is growing its regulated and long-term contracted business through multiple opportunities and technologies

1. Backlog as of October 21, 2026
2. Secured projects across NextEra Energy Transmission and gas transmission that have been awarded, are under development and are expected to be in operation by 2032

Federal Hubs de-risk natural gas expectations through 2032 and provide upside battery storage growth opportunity

1. Federal Hub projects included at 50% of nameplate capacity to reflect adjusted EPS contribution profile under fee-based structure
2. 4-hour equivalent

The combined company will drive affordability, create local jobs and deliver all forms of energy infrastructure

Long Term Customer Benefits

Buy More Efficiently

Build More Efficiently

Finance More Efficiently

Operate More Efficiently

Co-Headquarters

Career Opportunities

Cross-enterprise opportunities

Growing company

Building something greater together for Virginia

1

Doubling bill credits

Extended the monthly bill credit period for Virginia residential customers from two years to four years

New

2

Reduce costs

Over the long term, buy, build, finance and operate more efficiently to invest in new infrastructure more affordably

3

Protect low-income customers

Increase EnergyShare, Dominion Energy's energy bill assistance program, by \$100MM through 2038

New

4

Make Virginia more energy independent

Invest in additional solar, storage and dispatchable resources to reduce reliance on expensive imported power

5

Enhanced storm response

With absolutely no Virginia funding for storm restoration in any other state, including Florida

New

6

Jobs

Bringing 600 NextEra Energy jobs, 400 supplier jobs and thousands of indirect jobs across the Commonwealth

New

7

Co-Headquarters

Build, at shareholder expense, a NextEra Energy co-headquarters tower in Richmond

New

8

Invest in communities

Increase shareholder-funded charitable giving in Virginia by \$7 MM annually for five years

9

Workforce development and suppliers

Create a \$100 MM workforce development fund and establish up to a \$1 B annual, five-year Virginia Supplier Program

New

10

Virginia Clean Economy Act

Accelerate renewable and energy storage build in Virginia

Subject to regulatory approvals, we expect the NextEra Energy and Dominion Energy merger to close in the second half of 2027

1. Federal Energy Regulatory Commission (FERC); Nuclear Regulatory Commission (NRC); Hart-Scott-Rodino Anti-Trust Act (HSR); North Carolina Utilities Commission (NCUC); Public Service Commission of South Carolina (PSCSC); Virginia State Corporation Commission (VSCC)

FPL's earnings per share increased 6 cents from the prior-year comparable quarter

FPL Results – Third Quarter

FPL investments continue to focus on keeping customer bills low while delivering reliable electricity

NextEra Energy Resources' adjusted earnings increased ~13% from the prior-year comparable quarter

NextEra Energy Resources Results¹ – Third Quarter

1. Attributable to NextEra Energy

NextEra Energy Resources' growth was driven by new additions to our power generation and storage portfolio

NextEra Energy Resources Third Quarter 2026 Adjusted EPS¹ Contribution Drivers

1. Includes NextEra Energy Resources' ownership share of XPLR Infrastructure, LP's assets

2. Includes project contributions from wind, solar, storage, nuclear, gas, peaking and renewable natural gas projects during the first twelve months of operation or ownership and fees from management construction and operating services agreements (federal hub projects) during the first twelve months such fees are earned

3. Includes project contributions from wind, solar, storage, nuclear, gas, peaking, renewable natural gas projects and repowered wind projects beginning with the thirteenth month of operation or ownership and fees from federal hub projects beginning with the thirteenth month of fees earned

4. Includes natural gas, natural gas liquids and oil production results

5. Includes results from NEET and regulated gas transmission assets

NextEra Energy Resources added 3.7 GW to the backlog during the third quarter

NextEra Energy Resources Development Program¹

3.7 GW of new generation and storage added to the backlog since the second quarter call

- ~0.6 GW of solar
- ~2.4 GW of battery storage
- ~0.7 GW of wind

Energy Resources' backlog stands at ~36.7 GW^{3,4}

Note: Totals may not foot due to rounding

1. GW capacity expected to be owned and/or operated by NextEra Energy Resources as well as build-own-transfers; backlog defined as assets with signed long-term power purchase agreements, build-own-transfer projects and assets with expected long-term agreements including power hedging and/or the sale of environmental attributes; includes repowering and repowering expectations for partially owned assets, reflected as NextEra Energy's expected ownership share; all projects are subject to development and construction risks includes origination expectations in the "15 by 35" channel
2. Includes repowering expectations for partially owned assets, reflected at NextEra Energy's expected ownership share
3. As of October 21, 2026; net of ~1.8 GW placed in service and ~0.3 GW of projects removed from backlog since July 24, 2026; includes ~0.0 GW for post-2032 delivery
4. Federal Hub projects would be included upon execution of PPAs at 50% of nameplate capacity to reflect adjusted EPS contribution profile under fee-based structure

NextEra Energy's adjusted earnings per share increased 9.7% year-over-year

NextEra Energy remains well positioned to continue our strong adjusted earnings per share growth

NextEra Energy's Financial Expectations¹

Adjusted Earnings Per Share Expectations 2025–2035E

Expect 8%+ CAGR through 2032 off 2025 adjusted EPS²

Targeting top end of the adjusted EPS range for 2026

Targeting 8%+ CAGR through 2035 off 2025 adjusted EPS²

Operating Cash Flow³ expected to be at or above EPS growth rate range

Expect ~10% annual dividend per share growth for 2026, off a 2024 base, and 6% per year growth from year-end 2026 through 2028⁴

1. Subject to our caveats

2. 2025 adjusted EPS of \$3.71

3. 2025 base of \$12.5 B

4. Off a 2026E base; dividend declarations are subject to the discretion of the board of directors of NextEra Energy

We expect the merger to be immediately accretive to NextEra Energy adjusted EPS at closing

1. 2025–2032E; Off a base of 2025 adjusted EPS of \$3.71

2. 2025–2032E

3. Based on business mix methodology used by the credit rating agencies

4. 2025–2032E; off a NextEra Energy base of 2025 of \$12.5 B

5. 2025–2032E; off a 2025 pro forma base of \$17.9 B

6. Combined company would have one of the highest adjusted EPS growth rate expectations in the industry

Best-in-class shareholder value proposition

- One of the highest target adjusted EPS growth rates⁶
- 15+ ways to grow
- Largest regulated capital investment opportunity in the industry by wide margin
- Unmatched large load opportunity
- Expect to double U.S.’s largest generation fleet by 2032
- Diverse regulated footprint; 90%–95% regulated and long-term contracted business mix³
- One of the industry’s strongest balance sheets

NextEra Energy is well positioned to navigate the current interest rate environment

Interest Rate Sensitivity

Estimated Adjusted EPS Impact of +50 bps Interest Rate Increase¹

2026	2027	2028
\$0.00–(\$0.01)	\$0.00–(\$0.02)	(\$0.01)–(\$0.03)

NextEra Energy’s notional interest rate hedges total \$48.6 B²

1. Includes effect of interest rate hedges; the illustrative example above reflects an immediate 50-basis point upward shift in the yield curve which is assumed to then stay elevated through 2028
2. NEECH outstanding corporate hedge portfolio notional amount which excludes asset-level swaps as of September 30, 2026

Potential drivers of variability to consolidated NextEra Energy adjusted EPS

2026 Potential Sources of Variability¹

A 1% change in the wind production index equates to \$0.005–\$0.010 of EPS for 2026

1. Represents a measure of the actual wind speeds available for energy production for the stated period relative to long-term average wind speeds; the numerator is calculated from the actual wind speeds observed at each wind facility applied to turbine-specific power curves to produce the estimated MWh production for the stated period; the denominator is the estimated long-term average wind speeds at each wind facility applied to the same turbine-specific power curves to produce the long-term average MWh production
2. Includes new wind investments one year after project COD/acquisition date

Definitional information

NextEra Energy, Inc. Adjusted Earnings Expectations (including subsidiaries as applicable)

This presentation refers to adjusted earnings per share expectations. NextEra Energy does not provide a quantitative reconciliation of forward-looking adjusted earnings per share to earnings per share, the most directly comparable GAAP financial measure, because certain information needed to reconcile these measures is not available without unreasonable efforts due to the inherent difficulty in forecasting and quantifying these measures. These items include, but are not limited to, the effects of non-qualifying hedges and unrealized gains and losses on equity securities held in NextEra Energy Resources, LLC's nuclear decommissioning funds and other than temporary impairments. These items could significantly impact GAAP earnings per share. Adjusted earnings expectations and other forward-looking statements assume, among other things: normal weather and operating conditions; positive macroeconomic conditions in the U.S. and Florida; supportive commodity markets; current forward curves; public policy support for wind, solar and storage development and construction; market demand for generation development and capacity needs; market demand and policy support for transmission development and expansion; market demand for pipeline capacity; access to capital at reasonable cost and terms; rate case outcomes consistent with historical; no adverse litigation decisions; and no changes to governmental policies or incentives.

NextEra Energy Resources, LLC. Adjusted EBITDA

Adjusted EBITDA includes NextEra Energy Resources consolidated investments, its share of XPLR Infrastructure, LP and forecasted investments, as well as its share of equity method investments. Adjusted EBITDA represents projected (a) revenue less (b) fuel expense, less (c) project operating expenses, less (d) corporate G&A, plus (e) other income, less (f) other deductions. Adjusted EBITDA excludes the impact of non-qualifying hedges, other than temporary impairments, certain differential membership costs, and net gains associated with XPLR Infrastructure, LP deconsolidation beginning in 2018. Projected revenue as used in the calculations of Adjusted EBITDA represents the sum of projected (a) operating revenue plus a pre-tax allocation of (b) production tax credits, plus (c) investment tax credits and plus (d) earnings impact from convertible investment tax credits.

NextEra Energy Resources, LLC. Adjusted EBITDA by Asset Category

Adjusted EBITDA by Asset Category includes NextEra Energy Resources consolidated investments, its share of XPLR Infrastructure, LP and forecasted investments, as well as its share of equity method investments. Adjusted EBITDA by Asset Category represents projected (a) revenue less (b) fuel expense, less (c) project operating expenses, less (d) a portion of corporate G&A deemed to be associated with project operations, plus (e) other income, less (f) other deductions. Adjusted EBITDA by Asset Category excludes the impact of non-qualifying hedges, other than temporary impairments, corporate G&A not allocated to project operations, and certain differential membership costs. Projected revenue as used in the calculations of Adjusted EBITDA by Asset Category represents the sum of projected (a) operating revenue plus a pre-tax allocation of (b) production tax credits, plus (c) investment tax credits and plus (d) earnings impact from convertible investment tax credits.

Cautionary Statement

This presentation contains “forward-looking statements” within the meaning of the safe harbor provisions of the Private Securities Litigation Reform Act of 1995. Forward-looking statements are not statements of historical facts, but instead represent the current expectations of NextEra Energy, Inc. (NextEra Energy) and Florida Power & Light Company (FPL) regarding future operating results and other future events, many of which, by their nature, are inherently uncertain and outside of NextEra Energy’s and FPL’s control. Forward-looking statements in this presentation include, among others, statements concerning the pending business combination transaction between NextEra Energy and Dominion Energy, Inc., a Virginia corporation (Dominion Energy) and future events, plans and anticipated results of operations, the anticipated benefits of the pending transactions, the anticipated impact of the pending transactions on the combined company’s business and future financial and operating results, statements concerning adjusted earnings per share expectations and future operating performance, statements concerning future dividends, statements concerning growth strategies, capital investment opportunities and technology initiatives, and statements concerning interest rate risk management. In addition, all statements other than statements of historical fact included or incorporated by reference in this presentation, including, among other things, statements regarding the pending business combination transaction between NextEra Energy and Dominion Energy, and other aspects of NextEra Energy’s, FPL’s or Dominion Energy’s operations or operating results, are forward-looking statements. In some cases, you can identify the forward-looking statements by words or phrases such as “ambition,” “will,” “may result,” “expect,” “anticipate,” “estimate,” “believe,” “budget,” “intend,” “plan,” “seek,” “potential,” “projection,” “forecast,” “predict,” “goals,” “target,” “outlook,” “should,” “would,” “estimate,” “continue,” “could,” “objective,” “guidance,” “effort” or similar words or expressions. You should not place undue reliance on these forward-looking statements, which are not a guarantee of future performance, outcomes or results and are subject to numerous risks, uncertainties and other factors, many of which are beyond NextEra Energy’s, FPL’s or Dominion Energy’s control, that could cause actual performance, outcomes or results to differ materially from what is expressed or implied in the forward-looking statements, or may require them to limit or eliminate certain operations. The risks and uncertainties relating to each of NextEra Energy’s and FPL’s businesses and financial condition include, but are not limited to, those discussed in this presentation and the following: risks related to the pending merger with Dominion Energy, including restrictions on our operations during the pendency of the merger; the risk that any governmental or regulatory approval, consent or authorization that may be required for the pending transactions is not obtained, is delayed or is obtained subject to conditions that are not anticipated or that cause the termination of the merger agreement and abandonment of the transactions; the occurrence of any event, change or other circumstance that could give rise to the termination of the merger agreement by either party; the risk that certain provisions in the merger agreement or the pendency of the transactions may impact either party’s ability to pursue certain business opportunities or strategic transactions; the risk that we may not realize the anticipated benefits of the pending transactions or successfully integrate the two companies; the anticipated impact of the pending transactions on the combined company’s business and future financial and operating results, the anticipated closing date for the pending transactions; effects of extensive regulation of NextEra Energy’s and FPL’s business operations; inability of NextEra Energy and FPL to recover in a timely manner any significant amount of costs, a return on certain assets or a reasonable return on invested capital through base rates, cost recovery clauses, other regulatory mechanisms or otherwise; impact of political, regulatory, operational and economic factors on regulatory decisions important to NextEra Energy and FPL; effect of any reductions or modifications to, or elimination of, governmental incentives or policies that support clean energy of NextEra Energy and FPL and their respective affiliated entities or changes in or the imposition of additional tax laws, tariffs, duties, policies or other costs or assessments on clean energy or equipment necessary to generate, store or deliver it; impact of new or revised laws, regulations, executive orders, interpretations or constitutional ballot and regulatory initiatives on NextEra Energy and FPL; capital expenditures, increased operating costs and various liabilities attributable to environmental laws, regulations and other standards applicable to NextEra Energy and FPL; effects on NextEra Energy and FPL of federal or state laws or regulations mandating new or additional limits on the production of greenhouse gas emissions; exposure of NextEra Energy and FPL to significant and increasing compliance costs and substantial monetary penalties and other sanctions as a result of extensive federal, state and local government regulation of their operations and businesses; effect on NextEra Energy and FPL of changes in tax laws, guidance or policies as well as in judgments and estimates used to determine tax-related asset and liability amounts; impact on NextEra Energy and FPL of adverse results of litigation; impacts on NextEra Energy or FPL of allegations of violations of law; effect on NextEra Energy and FPL of failure to proceed with projects under development or inability to complete the construction of (or capital improvements to) electric generation, storage, transmission and distribution facilities, natural gas and oil production and transportation facilities and other facilities on schedule or within budget; impact on development and operating activities of NextEra Energy and FPL resulting from risks related to project siting, construction, permitting, governmental approvals and the negotiation of project development agreements, as well as supply chain disruptions; risks involved in the operation and maintenance of electric generation, storage, transmission and distribution facilities, natural gas and oil production and transportation facilities, and other facilities; effect on NextEra Energy and FPL of a lack of growth, slower growth or a decline in the number of customers or in customer usage; planned productivity increases and competitive advantages through the use of artificial intelligence technologies may not be realized and the use of and reliance on artificial intelligence may present certain risks; impact on NextEra Energy and FPL of severe weather and other weather conditions; threats of geopolitical factors, terrorism and catastrophic events that could result from terrorism, cyberattacks or other attempts to disrupt NextEra Energy’s and FPL’s business or the businesses of third parties; inability to obtain adequate insurance coverage for protection of NextEra Energy and FPL against significant losses and risk that insurance coverage does not provide protection against all significant losses; a prolonged period of low natural gas and oil prices, disrupted

Cautionary Statement

production or unsuccessful drilling efforts could impact NextEra Energy Resources, LLC's (NextEra Energy Resources) natural gas and oil production operations and cause NextEra Energy Resources to delay or cancel certain natural gas and oil production projects and could result in certain assets becoming impaired; risk to NextEra Energy Resources of increased operating costs resulting from unfavorable supply costs necessary to provide NextEra Energy Resources' full energy and capacity requirements services; inability or failure to manage properly or hedge effectively the commodity risk within its portfolio; effect of reductions in the liquidity of energy markets on NextEra Energy's ability to manage operational risks; effectiveness of NextEra Energy's and FPL's risk management tools associated with their hedging and trading procedures to protect against significant losses, including the effect of unforeseen price variances from historical behavior; impact of unavailability or disruption of power transmission or commodity transportation operations on sale and delivery of power or natural gas by NextEra Energy, including FPL; exposure of NextEra Energy and FPL to credit and performance risk from customers, hedging counterparties and vendors; failure of NextEra Energy or FPL counterparties to perform under derivative contracts or of requirement for NextEra Energy or FPL to post margin cash collateral under derivative contracts; failure or breach of NextEra Energy's or FPL's information technology systems, or implementation challenges; risks to NextEra Energy's and FPL's retail businesses from compromise of sensitive customer data; losses from volatility in the market values of derivative instruments and limited liquidity in over-the-counter markets; impact of negative publicity; inability of FPL to maintain, negotiate or renegotiate acceptable franchise agreements with municipalities and counties in Florida; occurrence of work strikes or stoppages and increasing personnel costs; NextEra Energy's ability to successfully identify, complete and integrate acquisitions, including the effect of increased competition for acquisitions; environmental, health and financial risks associated with NextEra Energy Resources' and FPL's ownership and operation of nuclear generation facilities; liability of NextEra Energy and FPL for significant retrospective assessments and/or retrospective insurance premiums in the event of an incident at certain nuclear generation facilities; increased operating and capital expenditures and/or reduced revenues at nuclear generation facilities of NextEra Energy or FPL resulting from orders or new regulations of the Nuclear Regulatory Commission; inability to operate any of NextEra Energy Resources' or FPL's owned nuclear generation units through the end of their respective operating licenses or planned license extensions; effect of disruptions, uncertainty or volatility in the credit and capital markets or actions by third parties in connection with project-specific or other financing arrangements on NextEra Energy's and FPL's ability to fund their liquidity and capital needs and meet their growth objectives; defaults or noncompliance related to project-specific, limited-recourse financing agreements; inability of NextEra Energy, FPL and NextEra Energy Capital Holdings, Inc. to maintain their current credit ratings; reduction of NextEra Energy's and FPL's liquidity from the inability of credit providers to fund their credit commitments or to maintain their current credit ratings; poor market performance and other economic factors that could affect NextEra Energy's defined benefit pension plan's funded status; poor market performance and other risks to the asset values of NextEra Energy's and FPL's nuclear decommissioning funds; changes in market value and other risks to certain of NextEra Energy's assets and investments; effect of inability of NextEra Energy subsidiaries to pay upstream dividends, make distributions or repay funds to NextEra Energy or of NextEra Energy's performance under guarantees of subsidiary obligations on NextEra Energy's ability to meet its financial obligations and to pay dividends on its common stock; the fact that the amount and timing of dividends payable on NextEra Energy's common stock, as well as the dividend policy approved by NextEra Energy's board of directors from time to time, and changes to that policy, are within the sole discretion of NextEra Energy's board of directors and, if declared and paid, dividends may be in amounts that are less than might be expected by shareholders; effects of disruptions, uncertainty or volatility in the credit and capital markets on the market price of NextEra Energy's common stock; and the ultimate severity and duration of public health crises, epidemics and pandemics, and the related effects on NextEra Energy's or FPL's businesses. For additional information about other factors that could cause actual results to differ materially from those described in the forward-looking statements, please refer to NextEra Energy's, FPL's and Dominion Energy's respective periodic reports and other filings with the Securities and Exchange Commission (SEC), including, but not limited to, the risk factors contained in NextEra Energy's and FPL's, on the one hand, and Dominion Energy's, on the other, most recently filed Annual Reports on Form 10-K and subsequently filed Quarterly Reports on Form 10-Q, the registration statement on Form S-4 (Registration No. 333-297351) filed by NextEra Energy with the SEC on July 9, 2026 (Registration Statement), which was declared effective by the SEC on July 23, 2026, and the definitive joint proxy statement/prospectus filed by NextEra Energy with the SEC on July 28, 2026 (definitive joint proxy statement/prospectus).

This presentation should be read in conjunction with such SEC filings. Any forward-looking statements included in this presentation represent current expectations, are inherently uncertain and are made only as of the date hereof (or, if applicable, the date(s) indicated in such statement). Except as required by law, neither NextEra Energy nor FPL undertakes or assumes any obligation to update any forward-looking statements, whether as a result of new information or to reflect subsequent events or circumstances or otherwise.

Cautionary Statement

No Offer or Solicitation

This presentation is not intended to and shall not constitute an offer to buy or sell or the solicitation of an offer to buy or sell any securities, nor shall there be any sale, issuance or transfer of securities in any jurisdiction in which such offer, solicitation or sale would be unlawful prior to registration or qualification under the securities laws of any such jurisdiction. No offering of securities shall be made, except by means of a prospectus meeting the requirements of Section 10 of the Securities Act of 1933, as amended.

Additional Information about the Transactions and Where to Find It

In connection with the pending transactions, NextEra Energy has filed with the SEC the Registration Statement, which includes a joint proxy statement of NextEra Energy and Dominion Energy that also constitutes a prospectus of NextEra Energy. The Registration Statement was declared effective by the SEC on July 23, 2026. NextEra Energy filed the definitive joint proxy statement/prospectus with the SEC, and Dominion Energy filed a definitive proxy statement with the SEC, in each case, on July 28, 2026, and each of NextEra Energy and Dominion Energy commenced mailing of the definitive joint proxy statement/prospectus to their respective shareholders on or about July 28, 2026. Each of NextEra Energy and Dominion Energy may also file other relevant documents with the SEC regarding the pending transactions. This presentation is not a substitute for the Registration Statement or the definitive joint proxy statement/prospectus or any other document that NextEra Energy or Dominion Energy may file with the SEC. INVESTORS AND SECURITY HOLDERS ARE URGED TO READ THE REGISTRATION STATEMENT, THE DEFINITIVE JOINT PROXY STATEMENT/PROSPECTUS AND ANY OTHER RELEVANT DOCUMENTS THAT MAY BE FILED WITH THE SEC, AS WELL AS ANY AMENDMENTS OR SUPPLEMENTS TO THOSE DOCUMENTS, CAREFULLY AND IN THEIR ENTIRETY AS THEY BECOME AVAILABLE BECAUSE THEY CONTAIN OR WILL CONTAIN IMPORTANT INFORMATION ABOUT NEXTERA ENERGY, DOMINION ENERGY, THE PENDING TRANSACTIONS AND RELATED MATTERS.

Investors and security holders may obtain free copies of the Registration Statement, the definitive joint proxy statement/prospectus and other documents containing important information about NextEra Energy, Dominion Energy and the pending transactions filed or that will be filed with the SEC through the website maintained by the SEC at www.sec.gov.
